PARENT COMMITTEES

The District has opportunities for parent and community member involvement both at the district and school level through various committees/groups. Community members are encouraged to participate in their areas of interest.

District Accountability Committee (DAC):

The District Accountability Committee (DAC) is composed of members with diverse perspectives who work together to advise the administration and Board of Education on key issues facing the district. The DAC also performs statutory requirements such as providing input on the budget and reviewing improvement plans for Accreditation purposes.

Individual School Accountability Committees:

Each school has an accountability committee consisting of parents, community members, teachers and the principal. Members are charged with developing and maintaining a school and community partnership for the ongoing improvement of public education. The committee shall make recommendations and develop a school improvement plan with high, but achievable goals and objectives for improvement of education in its building.

Parent Organizations:

Each elementary building has an active parent/teacher group working to improve the education of students in the district.

SCHOOL VISITORS

Weld Re-3J welcomes and encourages visits to school by parents and other adult residents of the community, interested educators, and other persons invited by district officials. In order for the educational program to continue undisturbed when visitors are present and to prevent the intrusion of disruptive persons into the schools, visitor guidelines will be established by school administrators.

The district will make reasonable efforts to accommodate requests to visit the district's schools, yet also recognizes concerns for the welfare of students. Therefore, the district limits visitors to:

1. Parents/guardians of current students;
2. Other family members of current students who are approved by the student's parent/guardian;
3. Community members with a verified intended purpose; and
4. Board members and other persons invited by the district for official business purposes.

To ensure visitors do not disrupt the educational process or other school operations and that no unauthorized persons enter schools, all visitors must report to the school office immediately when entering a school.

Authorized visitors may:

1. be required to sign in and out;
2. be required to provide valid identification;
3. be given nametags to wear identifying themselves as visitors; and
4. be accompanied by a district employee for some or all of the visit.

Classroom visitations must be arranged in advance with the school administration and must be non obtrusive to the educational process and learning environment and should not occur on an excessive basis. School administrators may approve additional building procedures pertaining to school visitors and classroom visitations to preserve a proper and safe learning environment. Unauthorized persons may not loiter on school property at any time. Law enforcement authorities may be called to enforce this policy provision.

Visiting schools is a privilege, not a right, which may be limited, denied, or revoked by a school administrator or designee based on considerations of student and/or staff health, safety, efficient school operations, maintenance of a proper educational environment, or failure to comply with this policy

SCHOOL VOLUNTEERS/COMMUNITY RESOURCE PERSONS

A volunteer is a person who works on an occasional or regular basis at school sites or other educational facilities to support the efforts of professional personnel. Such an adult volunteer worker shall serve in that capacity without compensation and without employee benefits of any type. Pursuant to state law and district policy, some volunteers may be covered by Workers' Compensation and liability protection.

Volunteers may be utilized in the schools when prior approval is obtained from the building principal.

Use of volunteers within the district shall not conflict with or replace any regularly authorized personnel allotment.

Volunteers shall check in and out through the school office and shall only work with students under the immediate supervision and direction of a licensed employee.

Volunteers are expected to comply with all policies, administrative procedures and guidelines set forth by the district.

Background Checks of Routine Volunteers

Prior to adding an individual's name to the school district's list of authorized volunteers, the school district shall conduct a background check of the individual. Such background check may include but not be limited to making an inquiry to the Colorado Department of Education, the Colorado Bureau of Investigation, and/or other law enforcement agency to determine if there is any information on record indicating that the individual has been convicted of a crime involving unlawful sexual behavior or unlawful behavior with children.

Persons failing to provide the necessary information to conduct such background checks shall not be added to the authorized list. The decision made by the school district concerning an individual's fitness to volunteer in the school setting shall be final.

Community Resource Persons

Whenever a teacher wishes to arrange for a resource person to address or participate in a class or program, the teacher shall confer with and obtain the prior approval of the building principal. Information provided to the building principal shall include the name of the resource person and the date of the proposed visit, as well as the topic which will be discussed with students.

ATTENDANCE

One criteria of a student's success in school is regular and punctual attendance. Frequent absences may lead to poor academic work, lack of social development, and possible academic failure. Regular attendance is of utmost importance for school interest, social adjustment, and scholastic achievement. No single factor may interfere with a student's progress more quickly than frequent tardiness or absence. According to state law, it is the obligation of every parent/guardian to ensure that every child under their care and supervision receives adequate education and training and, if of compulsory attendance age, attends school. Continuity in the learning process and social adaptation is seriously disrupted by excessive absences. In most situations, the work missed cannot be made up adequately. Students who have good attendance generally achieve higher grades, enjoy school more, and are more employable after leaving school.

Every child who has attained the age of six years on or before August 1 of each year and is under the age of 17 is required to attend public school with such exceptions as provided by law. It is the parents' responsibility to ensure attendance. The courts may issue orders against the child, child's parent, or both compelling the child to attend school or the parent to take reasonable steps to assure the child's attendance.

The order may require the parent, child, or both to follow an appropriate treatment plan that addresses problems affecting the child's school attendance and that ensures an opportunity for the child to obtain a quality education. The building principal shall serve as the attendance officer for his/her school and the superintendent or designee shall serve as the school district attendance officer.

While regular attendance is critical, keeping children home who are too sick to be at school is equally important. For parents, it can be a difficult decision to make. The Colorado Department of Public Health and Environment (CDPHE) provides guidance on ["How Sick is Too Sick?"](#) for a child to safely attend school.

Excused absences

The following shall be considered excused absences:

1. A student who is temporarily ill or injured or whose absence is approved by the administrator of the school of attendance on a prearranged basis. Prearranged absences shall be approved for appointments or circumstances of a serious nature only which cannot be taken care of outside of school hours.
2. A student who is absent for an extended period due to physical, mental, or emotional disability.
3. A student who is pursuing a work-study program under the supervision of the school.
4. A student who is attending any school-sponsored activity or activities of an educational nature with advance approval by the administration.
5. A student who is suspended or expelled.

As applicable, the district may require suitable proof regarding the above exceptions, including written statements from medical sources.

Unexcused absences

An unexcused absence is defined as an absence that is not covered by one of the foregoing exceptions. Each unexcused absence will be entered on the student's record. The parents/guardians of the student receiving an unexcused absence will be notified orally or in writing by the district of the unexcused absence.

In accordance with law, the district may impose appropriate penalties that relate directly to classes missed while unexcused. Penalties may include a warning, school detention, or in-school suspension. Academic penalties, out-of-school suspensions, or expulsion will not be imposed for any unexcused absence.

Truancy and Chronic Absenteeism

When a student has an excessive number of absences, these absences negatively impact the student's academic success. For this reason, a student who has eight absences in a semester or 10 total absences in a school year, whether the absences are excused or unexcused, may be identified as "chronically absent" by the principal or designee. Absences due to suspension or expulsion will not be counted in the total number of absences considered for purposes of identifying a student as "chronically absent."

If a student is identified as "chronically absent," the principal or designee will develop a plan to improve the student's attendance. The plan will include best practices and research-based strategies to address the reasons for the student's chronic absenteeism, including but not limited to meeting with administrators, referral to the attendance advocate, YFC referral, signing an attendance contract. When practicable, the student's parent/guardian will participate in the development of the plan.

Nothing herein will require the principal or designee to identify a student as "chronically absent" prior to declaring the student as a "habitual truant" and pursuing court proceedings against the student and his or her parents/guardians to compel the student's attendance in accordance with state law

Make-up work

Make-up work will be provided for any class in which a student has an excused absence unless otherwise determined by the building administrator or unless the absence is due to the student's expulsion from school. It is the responsibility of the student to pick up any make-up assignments permitted on the day returning to class. There will be two day(s) allowed for make-up work for each day of absence.

Make-up work will be allowed following an unexcused absence or following a student's suspension from school with the goal of providing the student an opportunity to keep up with the class and an incentive to attend school. This work may receive full or partial credit to the extent possible as determined by the building administrator. Unless otherwise permitted by the building administrator, make-up work will not be provided during a student's expulsion.

Rather, the district will offer alternative education services to the expelled student in accordance with state law. The district will determine the amount of credit the expelled student will receive for work completed during any alternative education program.

Tardiness

A student is tardy when he or she comes to school/class after the bell has started ringing. WCHS students are considered absent from class if they are more than 10 minutes tardy. Students must have a pass from the office to be admitted to class and not incur a tardy. Excessive tardiness, determined as being in multiples of five (5), may result in a consequence as outlined in the discipline matrix.

In an unavoidable situation, a student detained by another teacher or administrator will not be considered tardy provided that the teacher or administrator gives the student a pass to enter the next class. Teachers will honor passes presented in accordance with this policy. The provisions of this policy are applicable to all students in the district, including those above and below the age for compulsory attendance as required by law.

EMANCIPATED STUDENTS OR STUDENTS NOT LIVING WITH A GUARDIAN

Students who have become legally emancipated or who have left the residence of their parent or guardian must report their situation to the principal or counselor immediately upon enrollment or change of status. These students will meet with both the principal and counselor to determine legal district custodial status, and to receive authorization on the student's being considered in-district, out of district, or McKinney-Vento (homeless status). All other students must have parental permission to leave school, and must sign in and out at the office regardless of age.

SCHOOL NUTRITION PROGRAM

The Weld County Re-3(J) food service program participates in the School Breakfast Program and the National School Lunch Program. Free and Reduced Price Meal Applications are available at the school office or at the District Office in Hudson, Colorado.

The point of sale program assists in crediting money to students' accounts, tracks an accurate account of all meals and items served, and makes available to parents the status of their student's account. If you have any questions, please contact Food Services at 303-536-2023.

1. Each student is required to use his or her student ID for meal purchases. Student pictures are imported into the computer to help with identifying the correct student.
2. When students bring in a check or cash, this amount is credited to their account and meals and a-la-carte items are automatically deducted from their account.
3. We encourage parents/guardians to pre-pay for your student's meals. We accept cash and personal or business checks made out to your child's school-**please put your student(s) name(s) on the check to insure the money is credited to the correct account. Parents may also pay by checking account or credit card on-line by visiting www.myschoolbucks.com.**
4. Please see Policy [E-16 \(EF\) School Meal Payments EXHIBIT 1](#) regarding the District Food Service meal charges and collection procedures.
5. Students are encouraged to bring their checks or cash to the cafeteria **before school** for crediting to their accounts.
6. Meals and a-la-carte items are available for purchase. The price of the a-la-carte items range from \$0.50 - \$2.50.

Collection of Meal Charge Debt

In collecting debt, the district shall ensure that collection efforts do not have a negative impact on the students involved and instead focus on the adult(s) in the household responsible for providing funds for student meal purchases. The district will work with parents to establish repayment plans with payment levels and due dates appropriate to the household's particular circumstances.

For students with delinquent meal charges, the following process will be used to collect debt. Email notifications will continue to occur as noted above. After notifications made by phone from administrators have gone unanswered for two weeks, the director of finance will send the first notice of the intention to turn over the debt to a collection agency along with a payment request. If the letter is unanswered, the director of finance will

send a final notice with a request for payment within one week. If no payment is received, the debt will be turned over to the collection agency.

Collection efforts from one school year may continue into the following school year, including when students transfer to a school outside of the district.

Fundraisers

Smart Snacks allows state agencies to use discretion in determining a specified number of exempt fundraisers where the foods and beverages sold are exempt from the Smart Snacks food and nutrition standards. Colorado allows up to three exempt fundraisers per school building per school year. The duration of the fundraiser must be in line with the intent of the regulation, which indicates that they must be infrequent. These exempt fundraisers are only exempt from the Smart Snacks food and nutrition standards, but not exempt from the Colorado Competitive Food Service Policy.

For more information visit: [School Nutrition Program \(EF\)](#), [Free and Reduced Price Food Services \(EFC\)](#), or [Nutritious Food Choices \(EFEA\)](#).

BUS RIDER RULES AND REGULATIONS

School bus transportation is a district courtesy and is not a service required by law. Therefore, bus riding is a privilege and is provided only to those students who respect the safety and rights of others. The school bus is to be considered an extension of the classroom. Parents and students should read the entire [Transportation Handbook](#). All students will be issued two student ID badges and students will need their badges to board the bus.

STUDENT CONDUCT IN SCHOOL VEHICLES

The privilege of riding in a school vehicle is contingent upon a student's good behavior and observance of the student code of conduct and established regulations for student conduct both at designated school vehicle stops and on-board school vehicles.

The operator of a school vehicle shall be responsible for the safety of the students in the vehicle, both during the ride and while students are entering or leaving the vehicle. Students shall be required to conform to all rules concerning discipline, safety and behavior while riding in the school vehicle. It is the vehicle operator's duty to notify the coordinator of transportation and the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to the student's parents/guardians, the principal may withhold from the student the privilege of riding in the school vehicle. Violation of district policies and regulations while in a school vehicle may also result in the student's suspension or expulsion from school, in accordance with Board policy concerning student suspensions, expulsions and other disciplinary interventions.

Students participating in activities which require transportation shall accompany the team or group in buses or cars provided or approved by the school district, including the return trip, except when otherwise requested in writing by the parent and approved by the staff member responsible for the students.

Permission to Ride Other Buses

Students wishing to ride another bus to or from school for a special occasion must follow the requirements for permission as noted in the Transportation Handbook. No exceptions will be made by school-level personnel.

Disciplinary Action

Any student failing to cooperate with the bus driver and/or to observe transportation rules will be subject to disciplinary action. Unless it is a serious infraction, the driver will call parents the first time a student violates bus rules. Serious or repeated infractions are referred to the building principal for disciplinary action and parents will be notified.

FIELD TRIPS

The firsthand learning experiences provided by field trips are very effective and worthwhile means of learning, as related to the total school program. Students will be assessed a small charge to help cover the cost of the bus and driver for field trips. Permission slips for students **must** be signed by parents before the field trip in order for the student to participate. School age children are not permitted to go on field trips with brothers and sisters. Younger family members are not normally permitted to go either.

STUDENT DRESS CODE

A safe and disciplined learning environment is essential to a quality educational program. District-wide standards on student attire are intended to help students concentrate on schoolwork, reduce discipline problems, and improve school order and safety. The Board recognizes that students have a right to express themselves through dress and personal appearance; however, students shall not wear apparel that is deemed disruptive or potentially disruptive to the classroom environment or to the maintenance of a safe and orderly school. Any student deemed in violation of the dress code shall be required to change into appropriate clothing or make arrangements to have appropriate clothing brought to school immediately.

Building principals, in conjunction with the school accountability committee, may develop and adopt school-specific dress codes that are consistent with this policy.

STUDENT CONDUCT

In all instances, students shall be expected to conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the Board in all district employees, the educational purpose underlying all school activities, the widely shared use of district property, and the rights and welfare of other students and staff. All employees of the district shall be expected to share the responsibility for supervising the behavior of students and for seeing that they abide by the conduct and discipline code.

Students in Third Grade and Higher Grade Levels

In accordance with applicable law and Board policy concerning student suspensions, expulsions, and other disciplinary interventions, the principal or designee may suspend or recommend expulsion of a student in third grade and higher grade levels who engages in one or more of the following activities while in school buildings, on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event and off district property when the conduct has a nexus to school or any district curricular or non-curricular event.

25. Repeated interference with the district's ability to provide educational opportunities to other students.
26. Continued willful disobedience or open and persistent defiance of proper authority including deliberate refusal to obey a member of the district staff.

DISCIPLINE PRACTICES

The first time a student is suspended out of school for disruptive behavior, a remedial discipline plan may be developed by the parents/student/administration in an effort to lessen the likelihood of future suspensions. **If a student receives a second out of school suspension for disruptive or detrimental behavior, a plan will be created or possibly modified by parent/student/administration. Future out-of-school suspensions may constitute habitually disruptive or detrimental behavior which may lead to a recommendation for expulsion.**

Unfulfilled disciplinary consequences imposed on a student at the end of a school year may be carried over to the start of the following school year (for example, a student assigned a five-day suspension with two days left of school would be suspended during the first three days of the following school year). In such instances, carryover discipline—other than expulsion—would “bypass” Summer School so the student could remain eligible for this academic assistance program.

Every student shall have the opportunity to receive class work for the time of his or her out-of-school suspension, provided this work does not require actual presence in the classroom. Students shall receive credit for completed class work on the same basis as do those students who are present. **Teachers will expect any work that the student received while suspended to be completed upon return to school. Students will be allowed to make-up all examinations, without penalty, given during a suspension.**

No student will be permitted on school property during a suspension. This includes attending school activities and school dances during his or her out-of-school suspension.

Students may be referred to the school counselor, as necessary.

DISOBEDIENT/DEFIANT

Disobedient/Defiant Definition;

Being willfully disobedient or openly and persistently defiant or repeatedly interfering with the schools ability to provide educational opportunities to and a safe environment for, other students.

Discipline will be in accordance with the Re3J discipline matrix

DETRIMENTAL BEHAVIOR

Detrimental Behavior Definition;

Behavior on school grounds, in a school vehicle, or at a school activity or sanctioned event that is detrimental to the welfare or safety of other students or of school personnel, including but not limited to incidents of bullying and other behavior that creates a threat of physical harm to the student or to other students.

Discipline will be in accordance with the Re3J discipline matrix

HABITUALLY DISRUPTIVE OR DETRIMENTAL BEHAVIOR

A habitually disruptive or detrimental student is defined as a student who has caused disruptive or detrimental situations disruptions in the classroom, on school grounds, on school vehicles, or at school activities or events at least three (3) times during the school year which has required the attention of administration. No student shall be declared as habitually disruptive prior to the development of a remedial discipline plan in accordance with the discipline matrix of the school. A student who has been declared “habitually disruptive or detrimental” may be expelled from the school and lose credit in the current semester.

ACADEMIC DISHONESTY

Weld Central High School expects all students to abide by ethical academic standards. Academic dishonesty—including plagiarism, cheating or copying the work of another, using technology for illicit purposes, or any unauthorized communication between students for the purpose of gaining advantage during an examination—is strictly prohibited. Weld Central’s Academic Integrity guidelines cover all school-related tests, quizzes, reports, class assignments, and projects, both in and out of class. The purpose of this guideline is to prepare students for the reality created by the technology explosion, for the world of college and beyond, where cheating and plagiarism have dire consequences.

Plagiarism is not the same as cooperation or collaboration. Teachers often expect, even encourage, students to work on assignments collectively. This is okay, as long as whose work being presented is clearly evident.

- Collaboration is to work together (with permission) in a joint intellectual effort.
- Plagiarism is to commit literary theft; to steal and pass off as one’s own ideas or words, and to create the production of another. When you use someone else’s words, you must put quotation marks around them and give the writer or speaker credit by citing the source. Even if you revise or paraphrase the words of someone else, if you use someone else’s ideas you must give the author credit. Some Internet users believe that anything available online is public domain. Such is not the case. Ideas belong to those who create and articulate them. To use someone else’s words or ideas without giving credit to the originator is stealing.
- Cheating includes, but is not limited to, copying or giving an assignment to a student to be copied (unless explicitly permitted by the teacher). Cheating also includes using, supplying, or communicating in any way unauthorized materials, including textbooks, notes, calculators, computers or other unauthorized technology, during an exam or project.
- Forgery or stealing includes, but is not limited to, gaining unauthorized access to exams or answers to an exam, altering computer or grade-book records, or forging signatures for the purpose of academic advantage.

The determination that a student has engaged in academic dishonesty shall be based on specific evidence provided by the classroom teacher or other supervising professional employee, taking into consideration written materials, observation, or information from others.

Students found to have engaged in academic dishonesty shall be subject to disciplinary as well as academic penalties. The range of consequences is receiving a zero on the assignment and parent notification to suspension and dismissal from extracurricular activities/elected or appointed student offices.

OFFENSIVE PUBLIC DISPLAY OF AFFECTION

The school recognizes that genuine feelings of affection may exist between students; however, students should refrain from inappropriate intimate behaviors on campus or at school related events. Public displays of affection deemed inappropriate by public standards include lewd or inappropriate affection – prolonged kissing, touching, fondling, etc. – are not allowed on school property. Repeated or especially inappropriate behavior in this regard may result in disciplinary consequences.

SUSPENSION AND EXPULSION

In matters involving student misconduct that may or will result in the student's suspension and/or expulsion, the student's parent/guardian shall be notified and involved to the greatest possible extent in the disciplinary procedures. Proportionate disciplinary interventions and consequences shall be imposed to address the student's misconduct and maintain a safe and supportive learning environment for students and staff. The Board and its designee(s) shall consider the following factors in determining whether to suspend or expel a student:

1. the student's age;
2. the student's disciplinary history;
3. the student's eligibility as a student with a disability;
4. the seriousness of the violation committed by the student;
5. the threat posed to any student or staff; and
6. the likelihood that a lesser intervention would properly address the violation.

Students in Third Grade and Higher Grade Levels

The Board of Education delegates to the principals of the school district or to a person designated in writing by the principal the power to suspend a student in third grade and higher levels in that school for not more than five school days on the grounds stated in C.R.S. 22-33-106 (1)(a), (1)(b), (1)(c) or (1)(e) or not more than 10 school days on the grounds stated in C.R.S. 22-33-106 (1)(d) unless expulsion is mandatory under law (see JKD/JKE-E).

INSTRUCTIONAL RESOURCES AND MATERIALS

All instructional resources and materials shall be aligned with the district’s academic standards and support the district’s educational objectives. All textbooks, library materials and other instructional resources and materials shall be available for inspection by students’ parents/guardians.

EXEMPTIONS FROM REQUIRED INSTRUCTION

If the religious or closely held personal beliefs and teachings of a student or the student’s parent/guardian are contrary to the content of a school subject or to any part of a school activity, the student may be exempt from participation. To receive such an exemption, the parent/guardian must present a written request for exemption to the school principal, stating the conflict involved.

If a student is unable to participate in a physical education class, the student must present to the school principal a statement from a physician or other licensed health care professional stating the reason for the inability to participate.

TEACHING ABOUT CONTROVERSIAL ISSUES AND USE OF CONTROVERSIAL MATERIALS

Controversial issues are defined as those problems, subjects or questions about which there are significant differences of opinion and discussions of which generally create strong feelings among people. Although there may be disagreement over what the facts are and what they mean, subjects usually become controversial issues because of differences in interpretation or the values people use in applying the facts.

Controversial materials are defined as learning resources which are not part of the district's approved learning resources and which are subject to disagreement as to appropriateness because they refer or relate to a controversial issue or present material in a manner which is itself controversial. Examples of such materials include, but are not limited to, those that depict explicit sexual conduct, graphic violence, profanity, drug use, or other socially undesirable behaviors, or materials that are likely to divide the community along racial, ethnic or religious lines.

Films and/or videos rated R, PG-13 or PG shall be considered controversial in accordance with this policy. X rated, NC-17 rated and unrated director's cut of R rated films and videos shall not be used in district schools. PG, PG-13 and R rated films and videos shall be considered controversial at the elementary school level. PG-13 and R rated films and videos shall be considered controversial at the middle school level. R rated films and videos shall be considered controversial at the high school level.

Teachers may use controversial learning materials and discuss controversial issues if they contribute to the attainment of course objectives directly related to Board Adopted academic standards. The educational purpose of teaching about controversial issues or using controversial materials must be student achievement in academic standards rather than reaching conclusions about the validity of a specific point of view.

In teaching about controversial issues, teachers shall work cooperatively with the building principal. Teachers shall obtain approval from the building principal prior to the use of any controversial materials. If a teacher has a question regarding whether an issue or resource is controversial within the meaning of this policy, the teacher shall contact the principal. The principal may instruct the teacher to notify students' parents/guardians and obtain parents/guardians' permission prior to discussing a controversial issue or using controversial materials. Teachers shall inform the principal of controversial issues that arise unexpectedly which cause or are likely to cause concern for students and/or their parents/guardians.

When teaching about controversial issues, teachers may express their personal viewpoints and opinions; however, they also have the obligation to be objective and impartially present the various sides of an issue. Controversial issues are to be presented with good judgment and coordination with the building principal, keeping in mind the maturity of the students.

SCHOOL CLOSURE INFORMATION

When it is necessary to close school because of emergency reasons, the administration will attempt to make a decision prior to the beginning of the school day. As soon as a decision is made, radio and TV stations KOA, KCNC Channel 4TV, KMGH Channel 7TV and KUSA Channel 9TV will be notified. The notice will be posted on the district website (www.re3j.com) and the snow message line at 303-536-2070.

During the school day, early dismissal can become a concern due to snow accumulation and icy roads. Additional daylight hours are important and buses may have trouble negotiating their routes. If possible, the decision to dismiss will be made by 12:30 of the day of concern and announced on the radio. However, there may be instances when an emergency dismissal will occur after 12:30. Therefore, the administration would suggest that you make arrangements with your children in case an early dismissal should occur when you are not at home. Realistically, there is no way to notify all parents in advance. We are concerned not only about safe transportation home by school bus, but also that the children have an alternate place to go in case you are not at home.

In addition to these forms for communication, Re-3J uses the automated School Messenger system. On days when school has been delayed or canceled you will receive an automated phone message. Click on the links below for more detailed information on weather related School Closures.

CAREER CLUSTERS & PATHWAYS

The Weld Central High School pathways is a four-year college and career readiness program that exposes and connects students with opportunities to the world outside of the classroom by providing support through skills needed to succeed after high school. Expanded college and career awareness activities beginning at Re-3J elementary schools will build into meaningful opportunities at Weld Central Middle School and set the stage for student success at Weld Central High School.

Every student will begin their Pathways journey through the Weld Central High School Freshman Success Academy. Success provides freshmen with the foundation of traditional core and elective classes as well as activities and information that supports them to choose which Pathway prior to their Sophomore year that suits them best.

Weld Central High School offers of four pathways for students to choose from:

- Agriculture, Skilled Trades & Natural Resources
- Business, Marketing & Hospitality
- Health Sciences, Public & Human Services
- STEM, Information Technology, Arts & Design

We recognize that students may have interests outside of these identified pathways. Our courses of study will be designed to expose students to numerous careers within and outside of each pathway. The experiences gained through each pathway will prepare students for their desired post-secondary endeavors. To that end, a student who is interested in a career not directly tied to one of these pathways will be encouraged to choose the pathway most closely aligned with their interests and then will be supported through personalized academic and community partnerships to be prepared for the future.

This academic structure allows students to complete traditional core classes that follow rigorous state standards based curriculum, participate in expanded college credit concurrent enrollment courses, and complete engaging electives. Students will also have opportunities to complete career connected learning opportunities such as internships, industry certifications, and project based learning activities.

STUDENT PROGRESS REPORTS

In an effort to communicate through electronic means, we invite parents to view student progress through the Infinite Campus Parent Portal. Parents can request a hard copy of their student's progress report by contacting their student's Rebel Time teacher. Progress reports are distributed to students during Rebel Time on Tuesday's. We encourage our parents to contact the counseling office at the high school in order to sign up for access to the Parent Portal.

SEMESTER EXAMS

All students are required to participate in quarter final exams or projects in each enrolled course. The exam or project is used as a proficiency indicator and will help determine the final grade. Under extenuating circumstances students may be permitted to take finals early with administrative approval.

SCHEDULE CHANGES

With administrative approval, students will be able to make changes to his/her schedule on days 1-5 of each semester without penalty after completing the Schedule Change Request form. Students can obtain the Schedule Change Request form from the Counseling Office.

STUDENT WITHDRAWALS

Students withdrawing from WCHS **MUST** obtain a withdrawal form from the counseling office. The parent is to complete the form, return all school property, pay all outstanding fees, and return the form to the counseling office.

ADVISORY

Every student grades 9 through 11 will have an advisory class. This period will focus on college and career readiness activities, ICAP requirements, and course planning.

CREDIT RECOVERY & SUMMER SCHOOL

Credit Recovery and Summer School classes are available for high school students, grades 9-12. Because a student is making up credit lost at our high school, the credit needs to be made up through our district's credit recovery program. Students who enter Weld Central High School from other schools who require less credit may be required to take courses to achieve twenty-six credits for graduation. Transfer students will not be subject to the fees for making up courses.

Summer School Sessions are held at Weld Central High School as well as online.

We will continue to utilize a proficiency-based online curriculum for Credit Recovery and Summer School course offerings. Almost all regular core courses are offered for Credit Recovery and Summer School, in addition to select electives. We realize that many of these courses will not take the equivalent amount of time to pass during the summer or after school. We believe that since a student has taken the course during the regular school year that Credit Recovery should be faster than regular semester classes. Please understand that this program is not intended to work toward early graduation but to recover credits.

Students taking credit recovery and summer school courses will pay a fee per class prior to being enrolled in the class. This will be charged to student accounts. Programming options and fees for Credit Recovery and Summer School are subject to change.

FEES

General textbook and materials fees may be assessed upon student registration. These fees are directly allocated toward the funding of curricular textbooks, curricular technology resources, and materials. Unpaid general textbook and materials fees will not result in a child's inability to enroll in and attend school. Any fee paid to the school district will be allocated to the general textbook and materials fee first.

Students will not be able to participate in extracurricular activities (e.g., athletics, clubs, dances, etc.) until the general textbook and materials fee and all other miscellaneous fees are paid. For those families with financial hardship, other options, such as a payment plan, are available by contacting the school office. If attempts to collect fees from the district are ignored, the fee balance may be forwarded to a collection agency for further collection processes. Students withdrawing from the district prior to October 1 of the school year may be eligible for a refund. No refunds will be offered after the October 1 date.

Alternative payment methods, such as installment plans or school service, shall apply to students who are unable to pay. As determined by the district, unpaid fees or fines may be sent to collections. A student shall not be refused use of textbooks based on failure to pay the required fees.

The following is a list of fees that **will** be charged:

STUDENT RECORDS

The Family Educational Rights and Privacy Act (FERPA) offers parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. Requests to inspect and review a student's educational records should be submitted to the school principal in writing. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. Parents or eligible students have the right to request amendment of the records under certain conditions. Parents or eligible children have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The address is available at the administration office as is the full policy and procedure for inspecting and reviewing student records.

SUPPORT SERVICES

Special Education

The Weld County RE-3J District Special Education Consortium is committed to the basic premise that the purpose of a public school education is to help each student, including those with disabilities, develop to the limit of his/her own capacity in order that he/she may have a useful life lived in dignity and freedom. Our goal is to provide full educational opportunities to all children with disabilities. Each student with a disability shall be offered an individual education program to meet his/her needs.

Students with disabilities, 3 to 21, residing within the Weld County Special Education Consortium jurisdiction shall have available to them a free appropriate public education provided in conformity with an individualized education plan. Programs may include regular and special instructional and related services to meet individual education needs. The school board reserves the right of final determination of placement in these programs.

English Language Development (ELD)

In Re-3J, as part of our commitment to high expectations, rigorous instruction, and quality teaching, our English Language Acquisition program components include:

- Identifying and screening students whose dominant language may not be English
- Assessing and monitoring student's English language acquisition using the WIDA Access Placement Test (W-APT) and the WIDA ACCESS assessment
- Providing all students with [sheltered instruction](#) opportunities and;
- Providing non English proficient (NEP) and limited English proficient (LEP) students with supplemental specialized language instruction programs

Local Education Agencies (LEA's) are required to provide informed parental notification as to why their child is in need of placement in a specialized language instruction program. Parents have the right to refuse these services at any time. For more information about ELD programming at your student's school, contact your school's administrator or ELD Teacher.

Multi-Tiered Systems of Supports (MTSS)

Introduction A Multi-Tiered System of Supports (MTSS) is a systemic, continuous-improvement framework in which data-based problem solving and decision-making is practiced across all levels of the educational system for supporting students. The framework of MTSS is a "way of doing business", which utilizes high quality evidence-based instruction, intervention, and assessment practices to ensure that every student receives the appropriate level of support to be successful. A Multi-Tiered System of Supports helps schools and districts to organize resources through alignment of academic standards and behavioral expectations, implemented with fidelity and sustained over time, in order to enable every child to successfully reach his/her fullest potential.

Gifted and Talented

In Re-3J, we hope to ensure students who are Gifted and Talented are provided the necessary support, programming, and advocacy needed to meet their full potential.

The Exceptional Children's Educational Act (ECEA) requires all school districts in Colorado to identify and serve students between ages five and twenty-one whose aptitude or competence in abilities, talents, and potential for accomplishment are exceptionally or developmentally advanced. For more information on our identification and programming processes and options, contact your schools Gifted and Talented Liaison or principal.

Counseling/Mental Health Services

Mental Health providers such as school psychologists, counselors, and social workers are available in every building to provide crisis and trauma support, as well as, some individualized counseling. The district's ability to provide regular, ongoing mental or social/emotional well-being is limited. For more information on local resources or additional support please speak with your school principal or school's mental health provider.

Individual and Group Counseling

The mission of the Weld County School District RE-3 (J) professional school counseling program is to empower all students to acquire educational, occupational, and social competencies in order to reach their individual potential in partnership with students, parents, staff, and community. The role of the counselor includes:

- Assisting students in developing life skills through short-term individual counseling

(generally not more than 3-4 meetings). Examples of skills that the counselor may work with a student to improve include decision-making, problem-solving, stress management, and anger management skills.

- Working with students to provide small group counseling on topics such as: grief/loss, study skills, anger management, and adjusting to a new school.
- Coordinating the affective education program which assists students in developing social and interpersonal skills.
- Assisting the school principal with identifying and resolving student issues, needs, and problems.
- Providing parents informational support about community resources available to assist their child/family.

Individual and group counseling sessions are available in the counseling office. Students wishing to see the counselor during class times need permission from the classroom teacher and/or counselor. Appointments may be necessary. Weld Central High School Counseling staff welcomes students and looks forward to meeting the needs of students.

DISTRICT NURSE

The school nurse is a registered nurse who is shared between three schools in the district. The roles and responsibilities of the school nurse include:

- Ensuring that health needs of students are addressed during the school day
- Managing communicable disease outbreaks
- Directing the immunization program
- Overseeing delegated nursing tasks
- Developing and implementing Health Care Plans
- Being a liaison between teachers, administrators, parents, & community health providers
- Providing for the care of acute health care needs, including emergencies
- Conducting health assessments
- Participating in the identification process of children with special needs
- Overseeing vision and hearing screening programs
- Providing training for the health aide and other school staff.

HEALTH ROOM AIDE

The Health Room Aide is trained in CPR, First Aid, and Medication Administration. The Health Room Aide assists the District Nurse in the roles listed above.

ILLNESS OR INJURY

The Health Room is available to students who become ill or injured while at school. Only trained and qualified personnel will provide first aid or give medications. Parents will be notified as soon as possible of illness or injury. Medical help will be summoned in case of an emergency.

IMMUNIZATIONS

Colorado law ([Board of Health rule 6 CCR 1009-2](#)) requires all students attending Colorado schools to be vaccinated against certain diseases, unless an exemption is filed. The minimum number and spacing of doses is set forth in the Advisory Committee on Immunization Practices (ACIP) [Child](#) and [Adolescent](#) Immunization Schedules. Meeting the initial vaccine requirements does not excuse a student from meeting additional requirements. In addition to the vaccines required for school entry, there are several vaccines recommended by

the ACIP that provide protection against other diseases. These include Meningococcal, Hepatitis A, Rotavirus, Human papillomavirus and Influenza.

Below are the vaccines required for students attending Colorado schools.

More information is available here: [School Required Immunizations](#).

Vaccines required to enter school (K-12)

- Hepatitis B.
- Diphtheria, tetanus, pertussis (DTap).*
- Inactivated poliovirus (IPV).*
- Measles, mumps, rubella (MMR).*
- Varicella (chicken pox).*
- Tetanus, diphtheria, pertussis (Tdap).**

*Students 4 through 6 years of age are required to have their final doses of DTaP, IPV,MMR and Varicella prior to kindergarten entry.

**Students are required to have Tdap prior to entry into 6th grade. One dose of Tdap is required for 6th through 12th grades.

MEDICATIONS

All medications, whether prescription or over the counter, are to be brought to the health office by a parent or trusted adult. Medications need to be in the original container and be accompanied by a Medication Administration Form that is completed by both a parent and a physician. You may print a form from the District website under the “Parent” tab, then “Health,” or a form may be obtained from the health office. Medications that need to be on the student’s person, such as inhalers, require a written Health Care Plan, as well as a self-carry contract signed by the student, parent, and nurse. Unauthorized possession of medications will result in a referral to the office.

SCHOOL SAFETY

Procedures for Safe, Confidential Reporting of Security and Safety Concerns

Adult Conduct: Weld Re-3J expects parents and guardians to model professionalism and respect, and refrain from disrupting teaching or school-support operations. Such behavior can create an unsafe, unproductive or threatening environment for our students and staff members.

Parents or families who violate this policy may be issued a warning about their behavior and/or barred from entering school grounds. Our goal is to help prevent conflicts by working together to maintain a positive and productive environment for our students and staff members. Read the Weld County School District Re-3J [Administrative Board Policy K-12 \(KFA\) Public Conduct on District Property](#) for more information.

Student Conduct: Student safety is a top priority and responsible conduct in every school is required to maintain a safe educational environment. Student safety policies and procedures apply when students are on school grounds, in district-approved vehicles, at designated school bus stops or at school-sponsored events.

- Safe2Tell Colorado tracks the outcome of all forwarded tips through required disposition reporting.

Crisis Management

[The Board of Education policy K-7 \(KDE\)](#) acknowledges the necessity of preparing a school response framework to adequately prepare school personnel, parents and the community to respond appropriately to a crisis. Crisis situations that could impact the school community may or may not occur on school property and include, but are not limited to, suicide, death, acts of violence, trauma, natural disaster and accident.

As an important component of school safety planning, the school district shall take the necessary steps to remain in compliance with the National Incident Management System (NIMS), as that system applies to school districts.

EMERGENCY DRILL

We have fire drills for the students' safety on a monthly basis. Periodically, we also have crisis and weather related drills at least once each semester. These drills are intended to familiarize students, teachers, and staff with evacuation procedures and routes ensuring greater safety should a real emergency occur. Student cooperation and participation in these drills is expected.

Standard Response Protocol (SRP)

SRP is an action protocol based not on individual scenarios but on the response to any given situation. Like the Incident Command System (ICS), SRP demands a specific vocabulary but also allows for great flexibility. SRP defines how we respond to **Hold, Secure, Lockdown, Evacuate, and Shelter** incidents in a standardized and consistent manner, given the uniqueness of each situation.

The SRP is not a replacement for any school safety plan or program. It is simply a classroom response enhancement for critical incidents, designed to provide consistent, clear, shared language and actions among all students, staff and first responders.

A critical ingredient in the safe school recipe is the uniform classroom response to an incident at school. Weather events, fires, accidents, intruders and other threats to student safety are scenarios that are planned and trained for by school and district administration and staff.

The Standard Response Protocol is based not on individual scenarios but on the response to any given scenario. Like the Incident Command System (ICS), SRP demands a specific vocabulary but also allows for great flexibility. The premise is simple: there are five specific actions that can be performed during an incident. When communicating these actions, the action is labeled with a “Term of Art” and is then followed by a “Directive.” Execution of the action is performed by active participants, including students, staff, teachers and first responders.

1. **Hold** is followed by “In your Room or Area. Clear the Halls” and is the protocol used when the hallways need to be kept clear of people.
2. **Secure** is followed by “Get Inside, Lock Outside Doors” and is the protocol used to safeguard students and staff within the building.
3. **Lockdown** is followed by “Locks, Lights, Out of Sight” and is the protocol used to secure individual rooms and keep students quiet and in place.
4. **Evacuate** may be followed by a location, and is the protocol used to move students and staff from one location to a different location in or out of the building.
5. **Shelter** is always followed by the hazard and a safety strategy and is the protocol for group and self protection.

SRP K-12 2021 STANDARD RESPONSE PROTOCOL

CLOSED CAMPUS

Weld Central Senior High School has a closed-campus policy. All students are required to remain on campus during school hours, unless excused for work release or other school activities. Students who violate this policy are subject to disciplinary action. Any student who leaves school before the time of dismissal without proper parent and/or office permission will be considered truant and subject to disciplinary action. Any student transporting another student off the campus during class hours without authorization will lose driving privileges and is subject to further disciplinary action.

When students arrive on campus before school they are to come inside the building, not to sit in cars or “hang out” in the parking area. The parking lot area will be off limits to students during the school day unless office or administrative permission is given to the student to be there.

VEHICLE GUIDELINES

Students may drive to school and park in the west parking lot only. The control and supervision of the parking lot at Weld Central Senior High School is difficult. There is a need to strictly regulate these areas. Unauthorized persons must be kept off campus to help secure student and staff property and limit truancy and other violations of school rules. It is easier for school authorities to meet those needs properly when we have the full cooperation of the students. It is important for each student to observe the following rules:

1. Students are not to be in the parking lot without permission from the office or an administrator, unless they are coming to or leaving school or involved in a school sponsored activity. Students must be able to furnish proof of permission to leave or enter the parking lot.
2. All drivers are expected to drive safely and orderly while entering and leaving the school premises. Fast or irresponsible driving will not be tolerated and may result in loss of driving privileges at school and/or may be reported to law enforcement.
3. Drivers are to enter and leave through the south (main) entrance to avoid the bus lanes.
4. Drivers are expected to yield to school buses when entering and leaving the parking lot.
5. Vehicles need to be properly parked within the parking spaces provided.
6. Students are not to sit in cars during lunch or school programs. Students who need to retrieve something from their cars need a pass from the attendance office.
7. Parking permits must be displayed on the rear view mirrors of all vehicles parked in the parking lot. These permits can be obtained from the front office.

The privilege of bringing a vehicle to the school is conditioned on the student driver allowing searches of the vehicle when there is reasonable suspicion of some violation of school rules. If a student or parents refuse this to occur, the refusal is grounds for taking away the privilege of parking on school grounds.

SEARCHES ON CAMPUS

Occasionally we will have to search students on campus. These searches will only occur if the administration has a reasonable suspicion that a student has something on campus that is not permissible. We will have detection canines come to the school on a regular basis for the purpose of preventing having prohibited items at the school. These searches are performed randomly.

HALL PASSES

When a student is out of the classroom, the student must have a hall pass. If a student is given permission to leave the classroom, the student's teacher will give him/her a written hall pass. The pass will indicate the student's destination and the time the student left the classroom. The pass will have the teacher's signature on it, and may be checked by other school personnel

LIBRARY

The library is a place for reference work, gathering materials to prepare assignments, using the computers for assignments, or satisfying appropriate reading interests beyond textbooks. The library is usually open from 7:30 a.m. until 4:30 p.m. Monday through Thursday for student use. No food or drinks are allowed in the library at any time. Violations of library rules and regulations may result in a student's loss of library and internet privileges.

TEXTBOOKS

Class textbooks are loaned to students for use during the school year. Textbooks should be covered and handled carefully. Be sure your name, grade, and school are written on the book cover should the book be misplaced. Students will be required to pay for lost or damaged books.

LOCKERS

Lockers are assigned by office staff when students request them.enroll. Before their records are cleared, students will clean out and vacate lockers. The school does not accept responsibility for the theft of articles from lockers. Locker checks may be performed at the discretion of the administration. Please do not leave money or other valuables in lockers. Students should not “jam” their lockers, and must use only the lockers assigned to them. Students jamming lockers may lose their locker privileges.

LOST AND FOUND

Students who find lost articles are asked to take them to the office where they can be claimed by the owner. Please check with the school secretary when items are missing. Items turned into the office will be kept for a limited time before being discarded.

STUDENT DEVICES (IN-PERSON)

HIGH SCHOOL CHROMEBOOKS

Students entering or staying at the High School will continue to hold onto their Chromebook as usual. We will retrieve Chromebooks from the new Freshman in the fall, and re-issue new Chromebooks to meet the distribution plan.

MIDDLE SCHOOL CHROMEBOOKS

Students entering the Middle School have been issued new Dell Chromebooks in 5th Grade. They will continue to hold on to these devices. All other Middle School students will also continue to hold on to their Chromebooks until the start of their Freshman year.

ELEMENTARY CHROMEBOOKS AND IPADS

Students will still be able to use their device in the classroom until the last day of school, if needed. Pre-K and Kindergarten will have Ipads in the classroom next year. Chromebook carts will be issued to each classroom (1st - 4th grade) at the start of the next school year. Incoming 5th graders will be issued new Dell Chromebooks in the fall to meet the distribution plan.

STUDENT DEVICES (INNOVATIONS)

HIGH SCHOOL CHROMEBOOKS

Students entering or staying at the High School will continue to hold on to their Chromebook.

MIDDLE SCHOOL CHROMEBOOKS

Students entering or staying at the Middle School will continue to hold on to their Chromebook.

ELEMENTARY CHROMEBOOKS AND IPADS

All elementary Innovations students need to return their district issued devices and chargers by the last day of school, (or sooner if the device is no longer needed). The devices can be returned to the front office of their home school or they can make an appointment with the tech department to return the device, if needed at <https://online.re3j.com/support/>. Any elementary students continuing with Innovations next year that need a device will be able to schedule a time to pick up the device prior to the start of the school year.

**Please note: All Chromebooks have a 4-year life cycle before they are replaced. Students issued a device will hold onto that device for 4 years and are expected to take care of the Chromebooks according to the Student Acceptable Use Policy (<https://drive.google.com/file/d/1rMmMLGhH6xGwSA6iM-eezkDYHSMW9EU9/view>). The life-cycle plan for individual issue starts in 5th grade – with a device refresh (meaning issued a new device) in 9th grade. At the end of high school, students will be given the opportunity to purchase the device.*

Optional Insurance and Repair for Student Chromebooks/Ipads for the 2022-2023 School Year

What is it?

The Optional Insurance and Repair program is designed to help offset the costs for families of a lost or damaged iPad or Chromebook. School Board policy J-63 clarifies that student use of the Internet, electronic communications and district technology devices is a privilege, not a right. Failure to follow the use procedures contained in the policy shall result in the loss of the privilege to use these tools and restitution for costs associated with damages. The costs for a damaged or replacement iPad or Chromebook can be expensive. Optional insurance is our way of helping offset unforeseen expenses for families. This program is optional, but can provide significant savings in the event of accidental damage or loss.

How much does it cost?

The insurance program is an optional, annual, non-refundable \$30/year payment per participant. This fee may be reduced or waived for students eligible for a free or reduced price lunch under the federal poverty income guidelines and homeless students as defined by McKinney-Vento. It is not proratable for partial semesters. Students who newly enroll in the district during the second semester will have the option to participate in that

school year's coverage at the rate of \$15. The amount of the premium may change from year to year based on data from the previous year's damage rates.

What does it cover?	What does it NOT cover?
<ul style="list-style-type: none"> ● A first incident of accidental damage at no charge. ● A second incident of accidental damage <ul style="list-style-type: none"> ○ Keyboard case only \$25 ○ iPad (with or w/o case) \$50 ● A third incident of accidental damage <ul style="list-style-type: none"> ○ Keyboard case only \$50 ○ iPad (with or w/o case) \$100. ● Exchange of district-issued non-working lightning cable. ● One incident of loss at a cost of \$250. A police report may be required for loss claims. 	<ul style="list-style-type: none"> ● Loss of cables or chargers. ● Replacement of damaged chargers. ● Intentional damage. ● Damage that occurs when the iPad is out of the district-issued case. ● Loss as a result of willful negligence. ● Any damage beyond the third incident.

To opt in, full payment of the fee must be completed during the insurance opt-in window from September 1 to September 30 (or within the first 30 days of enrollment for students who arrive after September 30).
